

Claims

- [c1] 1. An eccentric debarking disc comprising a flat element having a non-circular perimeter shape having at least one lobe.
- [c2] 2. The disc of claim 1 having 3 lobes.
- [c3] 3. The disc of claim 2 having at least one line of symmetry.
- [c4] 4. The disc of claim 3 having 3 lines of symmetry.
- [c5] 3. The disc of claim 2 having a discontinuous peripheral outline.
- [c6] 4. A debarking apparatus comprising an eccentric debarking disc as claimed in claim 1.
- [c7] 5. The debarking apparatus of claim 4 further comprising substantially circular filler disc.
